### Abstract

The study of the Heteroptera (Hemiptera) fauna of the Rio Pilcomayo National Park, resulted in an inventory composed of: Alydidae (3 spp.), Aradidae (1 sp.), Belostomatidae (4 spp.), Berytidae (1 sp.), Blissidae (4 spp.), Colobathristidae (1 sp.), Coreidae (4 spp.), Corixidae (3 spp.), Cydnidae (12 spp.), Cymidae (1 sp.), Gelastocoridae (1 sp.), Geocoridae (1 sp.), Gerridae (1 sp.), Hebridae (1 sp.), Largidae (3 spp.), Lygaeidae (6 spp.), Miridae (14 spp.), Pachygronthidae (3 spp.), Pachynomidae (1 sp.), Pentatomidae (3 spp.), Pyrrhocoridae (1 sp.), Reduviidae (10 spp.), Rhopalidae (9 spp.), Rhyparochromidae (20 spp.), Saldidae (1 sp.), Scutelleridae (2 spp.), Tingidae (1 sp.). These findings include three new records for the Argentinean fauna: *Niesthrea digna* Chopra (Rhopalidae), *Galgupha (Pestophleps) costomaculata* McAtee and Malloch, and *Dallasiellus alutaceus* Froeschner (Cydnidae); and 69 new records for Formosa Province.

**Key words:** Chaco Grasslands, Neotropics, Heteroptera, biodiversity

### Introduction

The South American Grasslands subrealm includes three large subtropical grassland and savanna bioregions, covering most of the southern continent (One Earth 2023). The Chaco Grasslands covers 108,294,000 ha, mostly in Paraguay and northern Argentina, and it comprises several habitats, although savannas, characterized by an abundance of grasses, and thorn forests—or a transition of these two—predominate (Melo *et al.* 2024a).

The National Park Río Pilcomayo (Fig. 1) was created in 1951 to protect part of the Humid Chaco. It is located in the Pilcomayo Department of the Formosa Province (-25.06531 -58.13715) and it comprises 51,889 ha which protects a great diversity of aquatic, terrestrial and floodable environments, ranging from lagoons and estuaries, grasslands with Caranday palm trees (*Copernicia alba* Morong), patches of forest, and gallery forests that accompany the banks of rivers. This heterogeneity highlights the great value of the area for the conservation of the biodiversity present in the humid Chaco environments of Argentina. Many emblematic species are protected in the Park, such as the lapacho [*Tabebuia lapacho* (K.Schum.) Sandwith], the red quebracho [*Aspidosperma quebracho-colorado* Schltdl.], and the guayacán [*Handroanthus guayacan* (Seem.) S.O. Grose], two species of yacaré [*Caiman* sp.], the black-headed monkey [*Ateles fusciceps* Gray], the tapir [*Tapirus terrestris* (Linnaeus)], the aguará guazú [*Chrysocyon brachyurus* Illiger], and the large anteater [*Myrmecophaga tridactyla* Linnaeus]; furthermore, more than 320 species of birds have been also recorded, many associated with the wetlands. This high diversity supported the establishment of the Park in 1992 as a Ramsar Site, which are wetlands recognized for being of great value, not only for the country or countries in which they are located but for humanity as a whole; and are included in the list of Ramsar Sites with the government's commitment to take the necessary measures to ensure that its ecological characteristics are maintained (Ramsar Convention of Wetlands 2024).

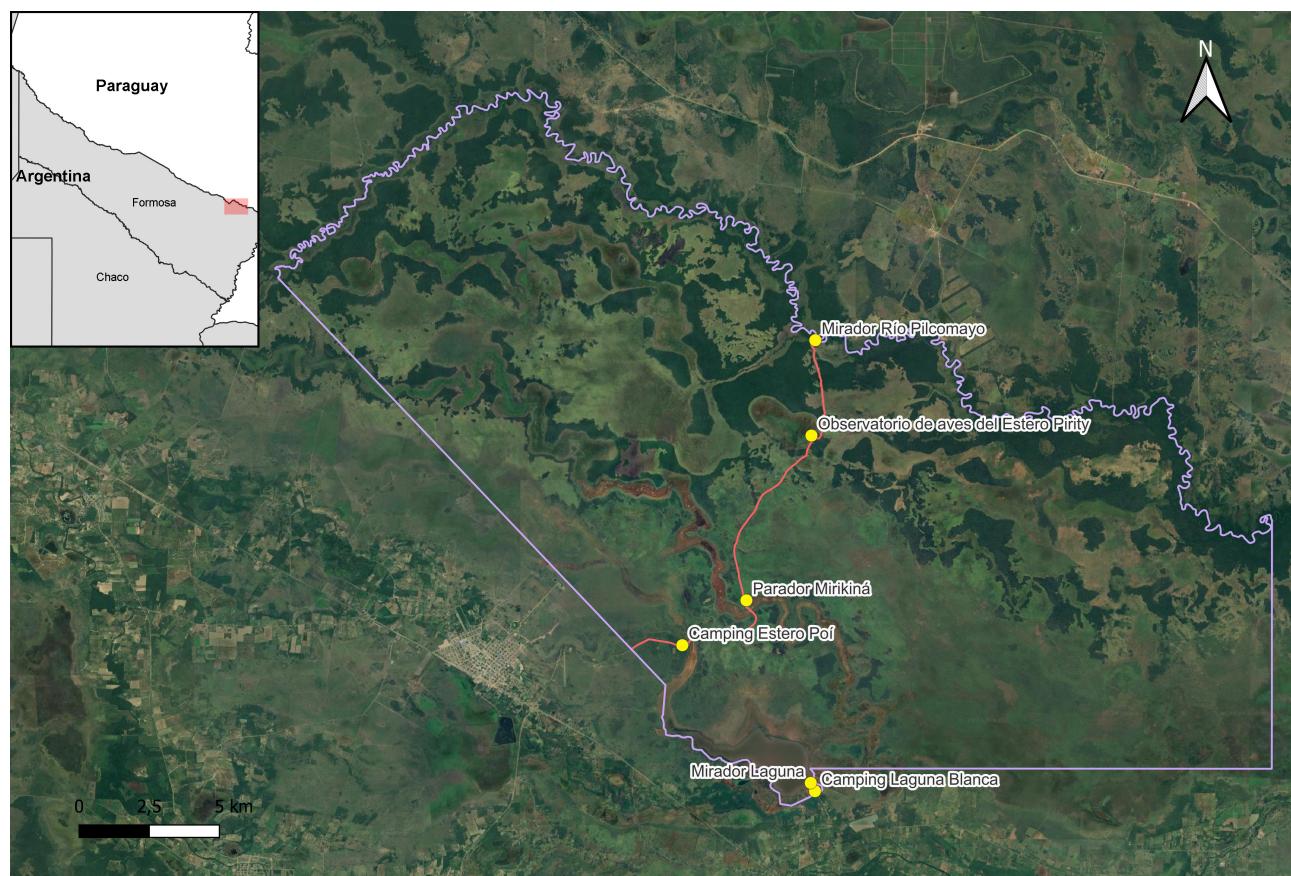

From the 1,337 native species recorded in the Park, it is evident that the known diversity of insects is scarce, as there are only 31 species registered in the Biodiversity Information System (SIB 2024) of the National Parks Administration, and only 18 species are true bugs.

The location of the Park at the border with Paraguay makes it a vulnerable place because of the illegal trade of cattle and hunting. Other main problem of the Park is the fire, both natural and intentional. The province of Formosa is the most affected by the fire in Argentina, with an observed notable increment during 2020 (Lizárraga 2021); this situation is remarkable if only the National Protected areas are compared, leading the list the Rio Pilcomayo National Park. Together with this, the extensive droughts produced by the climatic phenome of La Niña that have affected the region during the last years, presumably also affecting severely the populations of most taxa that inhabit the area.

In this contribution, we present an inventory of true bugs from the Rio Pilcomayo National Park, which was carried out mainly with the specific level identification of specimens from recent collecting trips to the area.

## Materials and Methods

Three field trips were done to the Rio Pilcomayo National Park (Fig. 1), in December 2018, February 2022, and October 2023. Permits to collect material were provided by the National Parks Administration (IF-2019-108859233-APNDNC% AONAC). Most of the specimens were collected using sweeping and beating nets, and complementary collections were done by hand in the field and by visual inspection of light traps. Specimens were preserved in ethyl acetate, then mounted in the lab, and examined under stereomicroscope. To confirm the identification of some specimens, the genital capsule of males and genital segments of females were dissected and cleared with a saturated potassium hydroxide solution for observation; dissected genitalia were preserved in microvials with glycerin. The specimens are deposited in the Museo de La Plata, Buenos Aires, Argentina (MLP).

**FIGURE 1.** Map of the study area. Rio Pilcomayo National Park, Formosa, Argentina. Yellow dots indicate collection sites.

We also included records of species taken from the citizen science platform ArgentiNat (<https://www.argentinat.org/home>), after confident identification of the photographed specimens.

Each species in this inventory includes the link to the catalogs of Argentinean Heteroptera published in BiodAr (Cigliano *et al.* 2024); Melo *et al.* (2024b), Dellapé *et al.* (2024), and Melo and Dellapé (2024). These catalogs show the distribution of the species in Argentina, and other countries, hierarchical classification, synonyms, economic damage registered, notes and references.

Dorsal habitus of the specimens from selected species were captured using a Canon EOS Rebel T7i with a Professional Grade Raynox DCR 150 DSLR Objective Tube Lens and the appropriate objectives, mounted on a WeMacro's automatic focus stacking rail. Multiple focal planes were taken with Helicon Remote software and merged using Helicon Focus software. Image editing and plates composition were done in Corel Draw. Scale bars are indicated in all figures.

The organization of the species follows the classification proposed by Schuh and Weirauch (2020). New provincial or country records are indicated following the species name.

## Results

### Nepomorpha

#### Belostomatidae

##### ***Belostoma bificeolatum* (Spinola, 1852). First record from Formosa Province**

<https://biodar.unlp.edu.ar/gerro-nepo-lepto/es/info/21237.html>

**Material studied.** 1♂, 1♀, Laguna Blanca, 8/X/2023, t. de luz, Dellapé, P.M. col., Melo, M.C. det.; 1♂, 1♀, same data, Dellapé, P.M. col., Melo, M.C. det., MLP he-11246.

##### ***Belostoma dentatum* (Mayr, 1863)**

<https://biodar.unlp.edu.ar/gerro-nepo-lepto/es/info/21242.html>

**Material studied.** 2♂♂, Laguna Blanca, 8/X/2023, Minghetti, E. col., MLP he-9109/9810; 2♂♂, same data, Dellapé, P. col., Melo, M.C. det., MLP he-11211/11212.

##### ***Belostoma micantulum* (Stål, 1860)**

<https://biodar.unlp.edu.ar/gerro-nepo-lepto/es/info/21251.html>

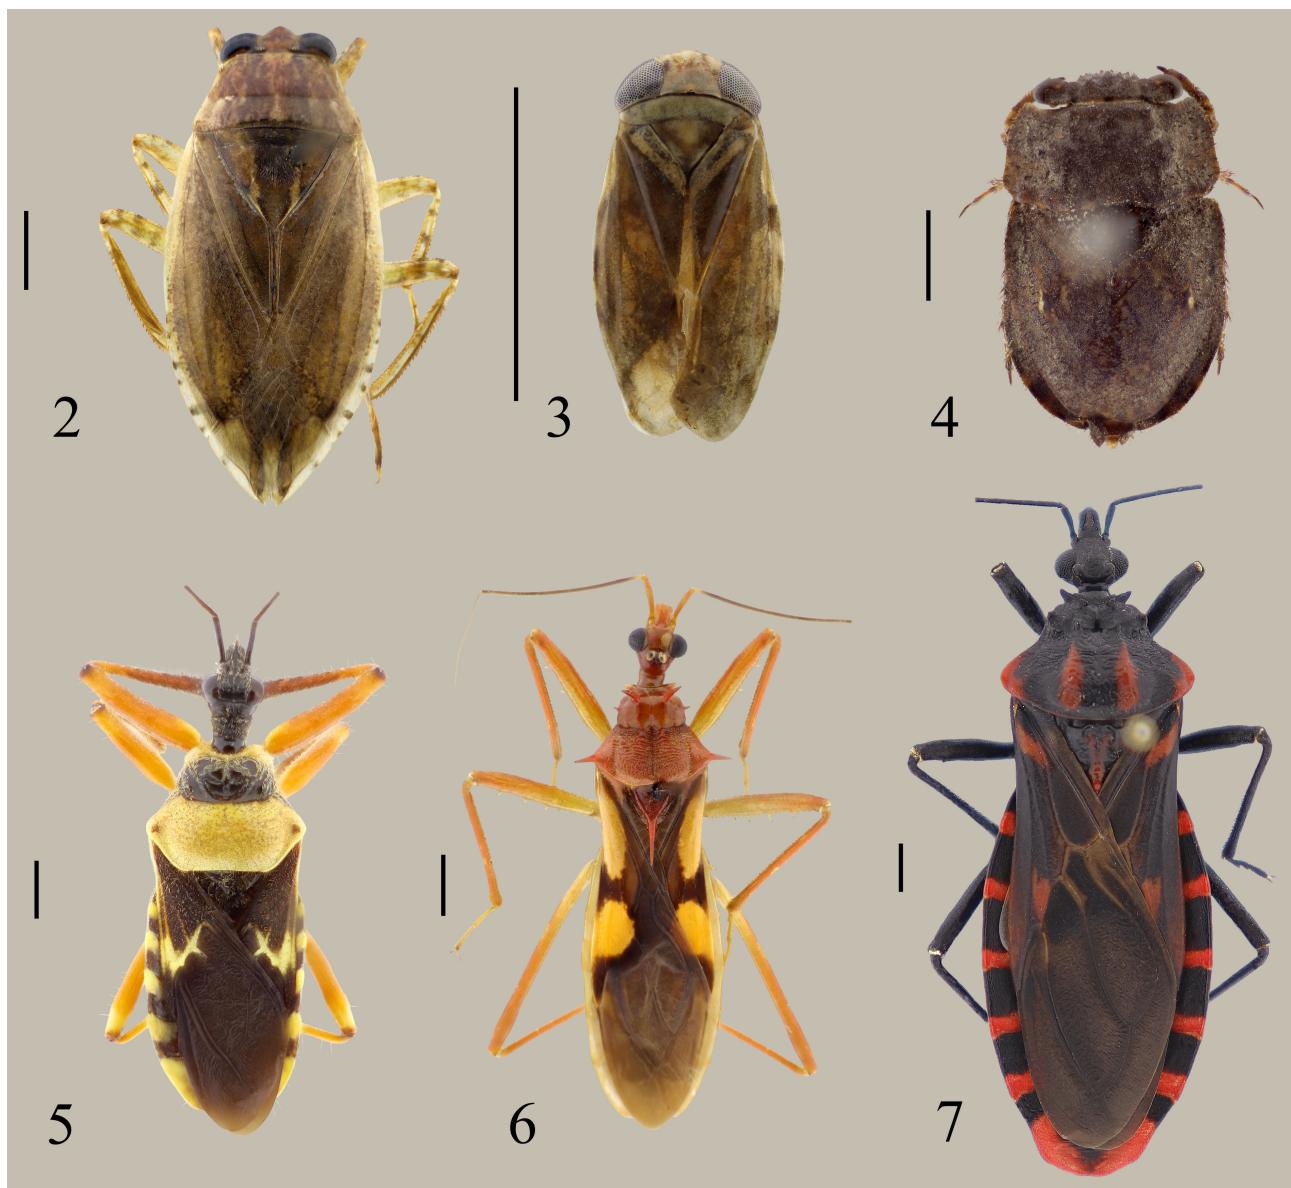

(Fig. 2)

**Material studied.** 1♀, Laguna Blanca, 15/II/2022, t. de luz, Dellapé, P. col., Melo, M.C. det., MLP he-19243; 4♂♂, same locality, 8/X/2023, T. de luz, Minghetti, E. col., Melo, M.C. det., MLP he-9793/9394, 9796/9797; 1♂, 5♀♀, same locality, 8/X/2023, t. de luz, Melo, M.C. col., Melo, M.C. det., MLP he-16238/16242; 1♀, same data, Dellapé, col., Melo, M.C. det., MLP he-11244; 1♂, same locality, 9/X/2023, Minghetti, E. col., Melo, M.C. det., MLP he-9795; 1♂, 1♀, same data, Dellapé, P. col., MLP he-13253/13254; 1♂, same data, Melo, M.C. col., Melo, M.C. det., MLP he-11245.

##### ***Lethocerus annulipes* (Herrich-Schäffer, 1845)**

<https://biodar.unlp.edu.ar/gerro-nepo-lepto/es/info/21260.html>

**Material studied.** 1♀, Laguna Blanca, 9/X/2023, Melo, M.C. col., Melo, M.C. det.

**FIGURES 2–7.** Dorsal habitus of Nepomorpha and Reduviidae recorded from the Rio Pilcomayo National Park. 2, *Belostoma micantulum*. 3, *Tenagobia (Incertagobia) incerta*. 4, *Nerthra peruviana*. 5, *Apiomerus arnaui arnaui*. 6, *Zelurus transnominalis*. 7, *Panstrongylus megistus*. Scale bars: 2 mm.

***Nanniresthenia golbachi* Carvalho and Carpintero, 1991. First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22626.html>

**Material studied.** 5♂♂, 3♀♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, T. de luz, Minghetti, E. det., MLP he-16370/16377; 1♂, 1♀, same locality, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., T. de luz., Minghetti, E. det., MLP he-16368, 16369; 1♀, same locality, 15/II/2022, T. de luz, Minghetti, E. det., MLP he-16378.

**Orthotylinae**

**Orthotylini**

***Hadronemella argentina* (Carvalho and Wallerstein, 1978). First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22370.html>

**Material studied.** 1♀, -25.0480576 -58.1271621, 9/X/2023, Melo, M.C. col., Minghetti, E. det., MLP he-16404.

***Hadronemella tucumana* Carvalho, 1984. First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22376.html>

(Fig. 11)

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 15/II/2022, T. de luz, Melo, M.C. col., Minghetti, E. det., MLP he-16417; 1♂, same locality, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., T. de luz.,

Minghetti, E. det., MLP he-16415; 1♂, same locality, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., Minghetti, E. det., MLP he-16416

#### ***Laemocoridea dispersa* (Carvalho, 1944)**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22329.html>  
(Fig. 12)

**Material studied.** 1♂, Mirador, -25.0151792 -58.1306691, 9/X/2023, Melo, M.C. col., Minghetti, E. det., MLP he-16408; 1 undetermined sex, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., Minghetti, E. det., T. Luz, MLP he-16409.

### **Phylinae**

#### **Phylini**

##### ***Rhinacloa basalis* (Reuter, 1907). First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22103.html>  
(Fig. 13)

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, T. Luz, Melo, M.C. col., Minghetti, E. det., MLP he-17146.

##### ***Tytthus neotropicalis* (Carvalho, 1954). First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/22292.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, T. de Luz, Melo, Olivera, Cheli & Dellapé cols., Minghetti, E. det., MLP he-16414.

### **Tingidae**

#### **Tinginae**

#### **Tingini**

##### ***Teleonemia carmelana* (Berg, 1892). First record from Formosa Province**

<https://biodar.unlp.edu.ar/cimicomorpha/es/info/20296.html>

**Material studied.** 1♂, Estero Poi, -25.060222 -58.139167, 82 m, 10/II/2022, Olivera, L. col., Melo, M.C. det., MLP he-16507.

### **Pentatomomorpha**

#### **Aradoidea: Aradidae**

##### ***Aradus penningtoni* (Drake, 1942)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/21717.html>

**Material studied.** 1♂, 13/II/2022, Melo, M.C. col., Melo, M.C. det., MLP he-8691.

## **Coreoidea**

### **Alydidae**

#### **Micrelytrinae**

##### **Micrelytrini**

###### ***Cydamus picticeps* (Stål, 1859b)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/21859.html>

**Material studied.** 1♂, -25.11739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Melo, M.C. det., MLP he-8212.

###### ***Neomegalotomus parvus* (Westwood, 1842)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/21841.html>

**Material studied.** 1♀, -25.0858430 -58.1566929, 11/XII/2018, Dellapé & Melo cols., Melo, M.C. det., MLP he-8424.

## **Leptocorisini**

### ***Stenocoris (Stenocoris) schaeferi* Montemayor and Dellapé, 2011**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/21848.html>

**Material studied.** 1♀, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Melo, M.C. det., MLP he-8373.

## **Coreidae**

### **Coreinae**

#### **Acanthocerini**

###### ***Lybindus dichrous* Stål, 1859c. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22763.html>

(Fig. 14)

**Material studied.** 2♂♂, -25.0406056 -58.1263044, 9/X/2023, on Caraguatá, Dellapé, P. col., Olivera, L. det., MLP he-17572/17573.

## **Hydarini**

### ***Maduranoides chemsaki* Brailovsky, 1988**

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/20591.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, M.C. Melo col., MLP he-7581; 2♂♂, 2♀♀, same locality, T. de luz, Melo, Olivera, Cheli & Dellapé cols., MLP he-7582-7585; 1♂, Estero Poi, -25.118833 -58.170139, 14/II/2022, L. Olivera col., L. Olivera det., MLP he-7580.

## Hypselonotini

### *Acidomeria sordida* (Berg, 1878). First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20596.html>

(Fig. 15)

**Material studied.** 1♀, -25.0406056 -58.1263044, 9/X/2023, on Caraguatá, Dellapé, P. col., Olivera, L. det., MLP he-17571.

## *Catorhintha divergens* Barber, 1926

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20611.html>

(Fig. 16)

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, light trap, Dellapé, P. col., Olivera, L. det., MLP he-17574.

## Rhopalidae

### Rhopalinae

#### Harmostini

##### *Harmostes (Harmostes) serratus* (Fabricius, 1775)

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/20020.html>

**Material studied.** 2♂♂, Estero Poi, -25.060222 -58.139167, 82 m, 10/II/2022, Olivera, L. col., Melo, M.C. det., MLP he-16494/16495; 1♀, Estero Poi, -25.118833 -58.170139, 14/II/2022, Melo, M.C. col., Melo, M.C. det., MLP he-16493; 1♀, -25.0480576 -58.127621, 9/X/2023, Melo, M.C. det., MLP he-11452.

## Niesthreini

### *Niesthrea digna* Chopra, 1973. First record from Argentina

(Fig. 17)

**Material studied.** 1♂, -25.122185 -58.1791104, Dellapé & Melo col., MLP he-16496.

**Note:** This species have been recorded from Brazil, Colombia and Venezuela (Melo and Henry 2019).

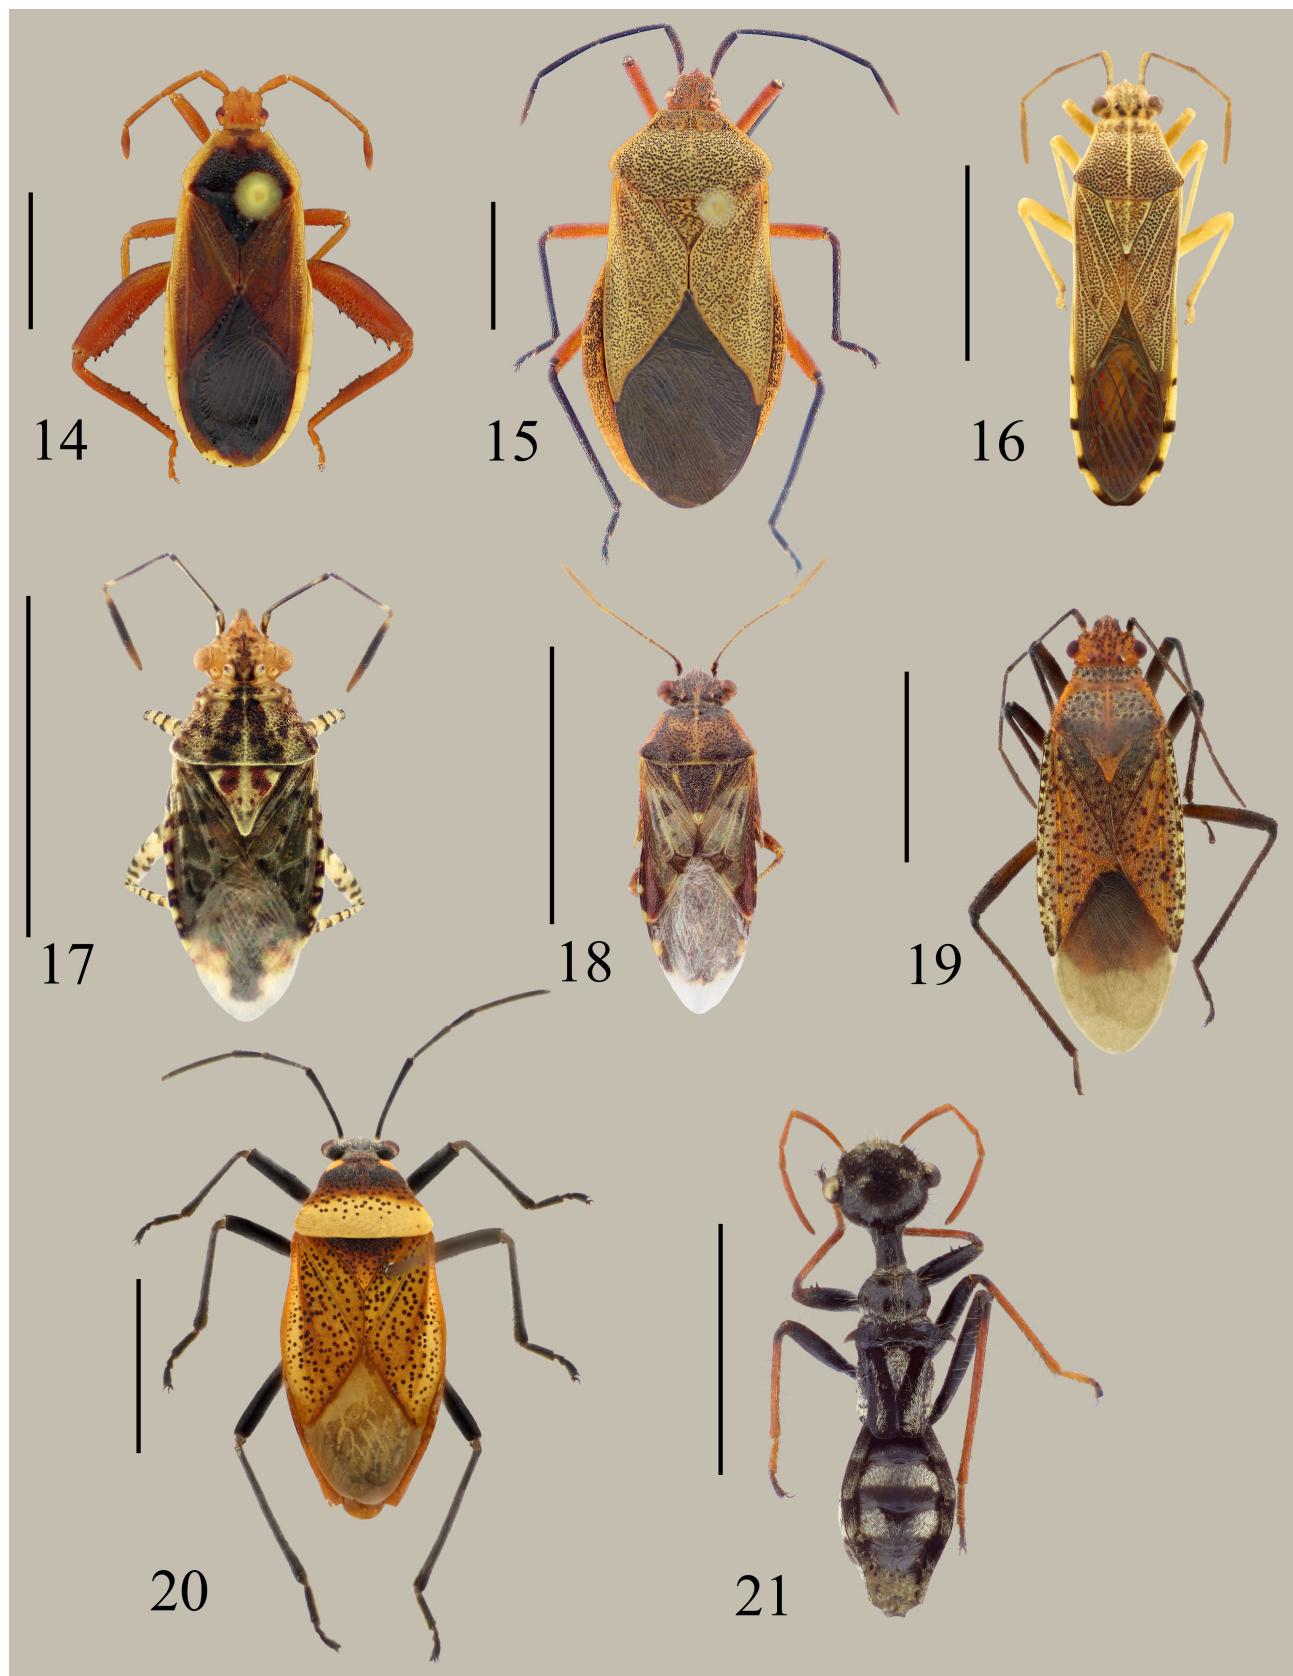

### *Niesthrea pictipes* (Stål, 1859b)

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/20008.html>

**Material studied.** 1♂, 4♀♀, -25.0858430 -58.1566929, 11/XII/2018, Dellapé & Melo cols., Melo, M.C. det., MLP he-16294/19298; 2♂♂, Laguna Blanca, -25.173665 -58.129756, 12/II/2022, Dellapé, P. col., Melo, M.C. det., MLP he-16488/16489; 2♂♂, Estero Poi, -25.123055 -58.193182, 12/II/2022, Melo, Olivera, Cheli & Dellapé cols., Melo, M.C. det., MLP he-16491/16492.

### *Niesthrea similis* Chopra, 1973. First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20009.html>

**FIGURES 14–21.** Dorsal habitus of Coreoidea and Pyrrhocoroidea recorded from the Rio Pilcomayo National Park. 14, *Lybindus dichrous*. 15, *Acidomeria sordida*. 16, *Catorhintha divergens*. 17, *Niesthrea digna*. 18, *Liorrhysus hyalinus*. 19, *Jadera choprai*. 20, *Largus trochanterus*. 21, *Thaumastaneis montandoni*. Scale bars: 5 mm.

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, Melo, M.C. col., Melo, M.C. det., MLP he-16309.

#### ***Niesthrea vincentii* (Westwood, 1842)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20010.html>

**Material studied.** 1♂, 2♀♀, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Melo, M.C. det., MLP he-16299/16301.

#### **Rhopalini**

##### ***Liorrhysus hyalinus* (Fabricius, 1794). First record from Formosa Province**

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/20003.html>

(Fig. 18)

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, Melo, M.C. col., Melo, M.C. det., MLP he-13252.

#### **Serinethinae**

##### ***Jadera choprai* Göllner-Scheiding, 1979. First record from Formosa Province**

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/20033.html>

(Fig. 19)

**Material studied.** 1♂, 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, Melo, M.C. col., Melo, M.C. det., MLP he-11239, 11240; 1♀, -25.173665 -58.129756, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., Melo, M.C. det., MLP he-16315; 1♂, 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2029, t. de luz, Dellapé, P. col., Melo, M.C. det., MLP he-16313, 16314.

##### ***Jadera coturnix* (Burmeister, 1835). First record from Formosa Province**

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/20034.html>

**Material studied.** 2♂♂, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, Melo, M.C. col., Melo, M.C. det., MLP he-11248, 11249.

##### ***Jadera sanguinolenta* (Fabricius, 1775). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20039.html>

**Material studied.** 2♀♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Cheli, Dellapé, Melo & Olivera cols., Melo, M.C. det., MLP he-16499/16500.

#### **Pyrrhocoroidea**

##### **Largidae**

##### **Larginae**

## Largini

### ***Largus fasciatus* Blanchard, 1843. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20042.html>

**Observation.** <https://www.argentinat.org/observations/107529762>

### ***Largus trochanterus* Signoret, 1862. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/20047.html>

(Fig. 20)

**Material studied.** 1♂, Estero Poi, -25.122055 -58.193182, 12/II/2022, Melo, Olivera, Cheli & Dellapé cols., Melo, M.C. det., MLP he-16487.

### ***Thaumastaneis montandoni* Kirkaldy and Edwards, 1902. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20052.html>

(Fig. 21)

**Material studied.** 1♂, Mirador, -25.0151792 -58.1306691, 9/X/2023, P. Dellapé col.; 1♂, same data, Melo, M.C. col., Melo, M.C. det., MLP he-16196.

## Pyrrhocoridae

### ***Dysdercus chaquensis* Freiberg, 1948. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20054.html>

**Material studied.** 2♀♀, same locality, 8/X/2023, Minghetti, E. col., Melo, M.C. det., MLP he-11237, 11238; 4♂♂, 1♀, 8/X/2023, Dellapé, P.M. col., Melo, M.C. det., MLP he-13247/13251; 1♂, 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, Melo, M.C. col., Melo, M.C. det., MLP he-11235, 11236.

## Pentatomoidea

### Cydniidae

#### Amnestinae

##### ***Amnestus pusio* (Stål, 1860). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22693.html>

**Material studied.** 5♂♂, 13♀♀, Laguna Blanca, 25°10'25,19"S-58°7'47,12"W, 14/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., Amaru, J. det., MLP he-17457/17474; 1♂, Laguna Blanca, -25.173665 -58.129756, 15/II/2022, t. de luz, Melo, M.C. col., Amaru, J. det., MLP he-17476; 1♂, same data, 13/II/2022, T. de Luz, Amaru, J. det., MLP he-17475.

### Cydninae

#### ***Cyrtomenus mirabilis* (Perty, 1830). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/22699.html>

(Fig. 22)

**Material studied.** 26♂♂, 30♀♀, Laguna Blanca, 25°10'25,19"S-58°7'47,12"W, 14/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., Amaru, J. det., MLP he-17147/17166, 17174/17179, 17259/17288; 7♂♂, 9♀♀, same data, 13/II/2022, Amaru, J. det., MLP he-17167/17173, 17289/17297; 6♂♂, 14♀♀, same locality, 8/X/2023, t. de luz, Minghetti, E. col., Amaru, J. det., MLP he-17216/17221, 17389/17399, 17387, 17401/17402.

***Cyrtomenus emarginatus* Stål, 1862a. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22698.html>

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, t. de luz, Minghetti, E. col., Melo, M.C. det., MLP he-17058; 1♂, same locality, 9/X/2023, t. de luz, Minghetti, E. col., Amaru, J. det., MLP he-17057.

***Dallasiellus alutaceus* Froeschner, 1960. First record from Argentina**

(Fig. 23)

**Material studied.** 1♀, Laguna Blanca, 25°10'25,19"S-58°7'47,12"W, 14/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., Amaru, J. det., MLP he-17067; 1♀, same data, Dellapé, P. col., MLP he-17068; 1♀, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, Melo, M.C. col., Amaru, J. det., MLP he-17064; 1♀, same data, Minghetti, E. col., Amaru, J. det., MLP he-17065; 1♂, 3♀♀, same locality, 9/X/2023, t. de luz, Dellapé, P. col., Amaru, J. det., MLP he-17059/17062; 1♀, same data, Melo, M.C. col., Amaru, J. det., MLP he-17063.

**Note.** Reported from Bolivia, Brazil, and Colombia (Avendaño *et al.* 2017).

***Melanaethus spinolae* (Signoret, 1863). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22713.html>

**Material studied.** 23♀♀, Laguna Blanca, 25°10'25,19"S-58°7'47,12"W, 14/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., Amaru, J. det., MLP he-17477/17499; 1♀, Laguna Blanca, -25.173665 -58.129756, 15/II/2022, t. de luz, Melo, M.C. col., Amaru, J. det., MLP he-17500; 1♀, same data, Dellapé, P. col., Amaru, J. det., MLP he-17510; 10♀♀, same data, 13/II/2022, t. de Luz, Amaru, J. det., MLP he-17501/17509.

***Pangaeus xanthopus* Signoret, 1882. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22721.html>

(Fig. 24)

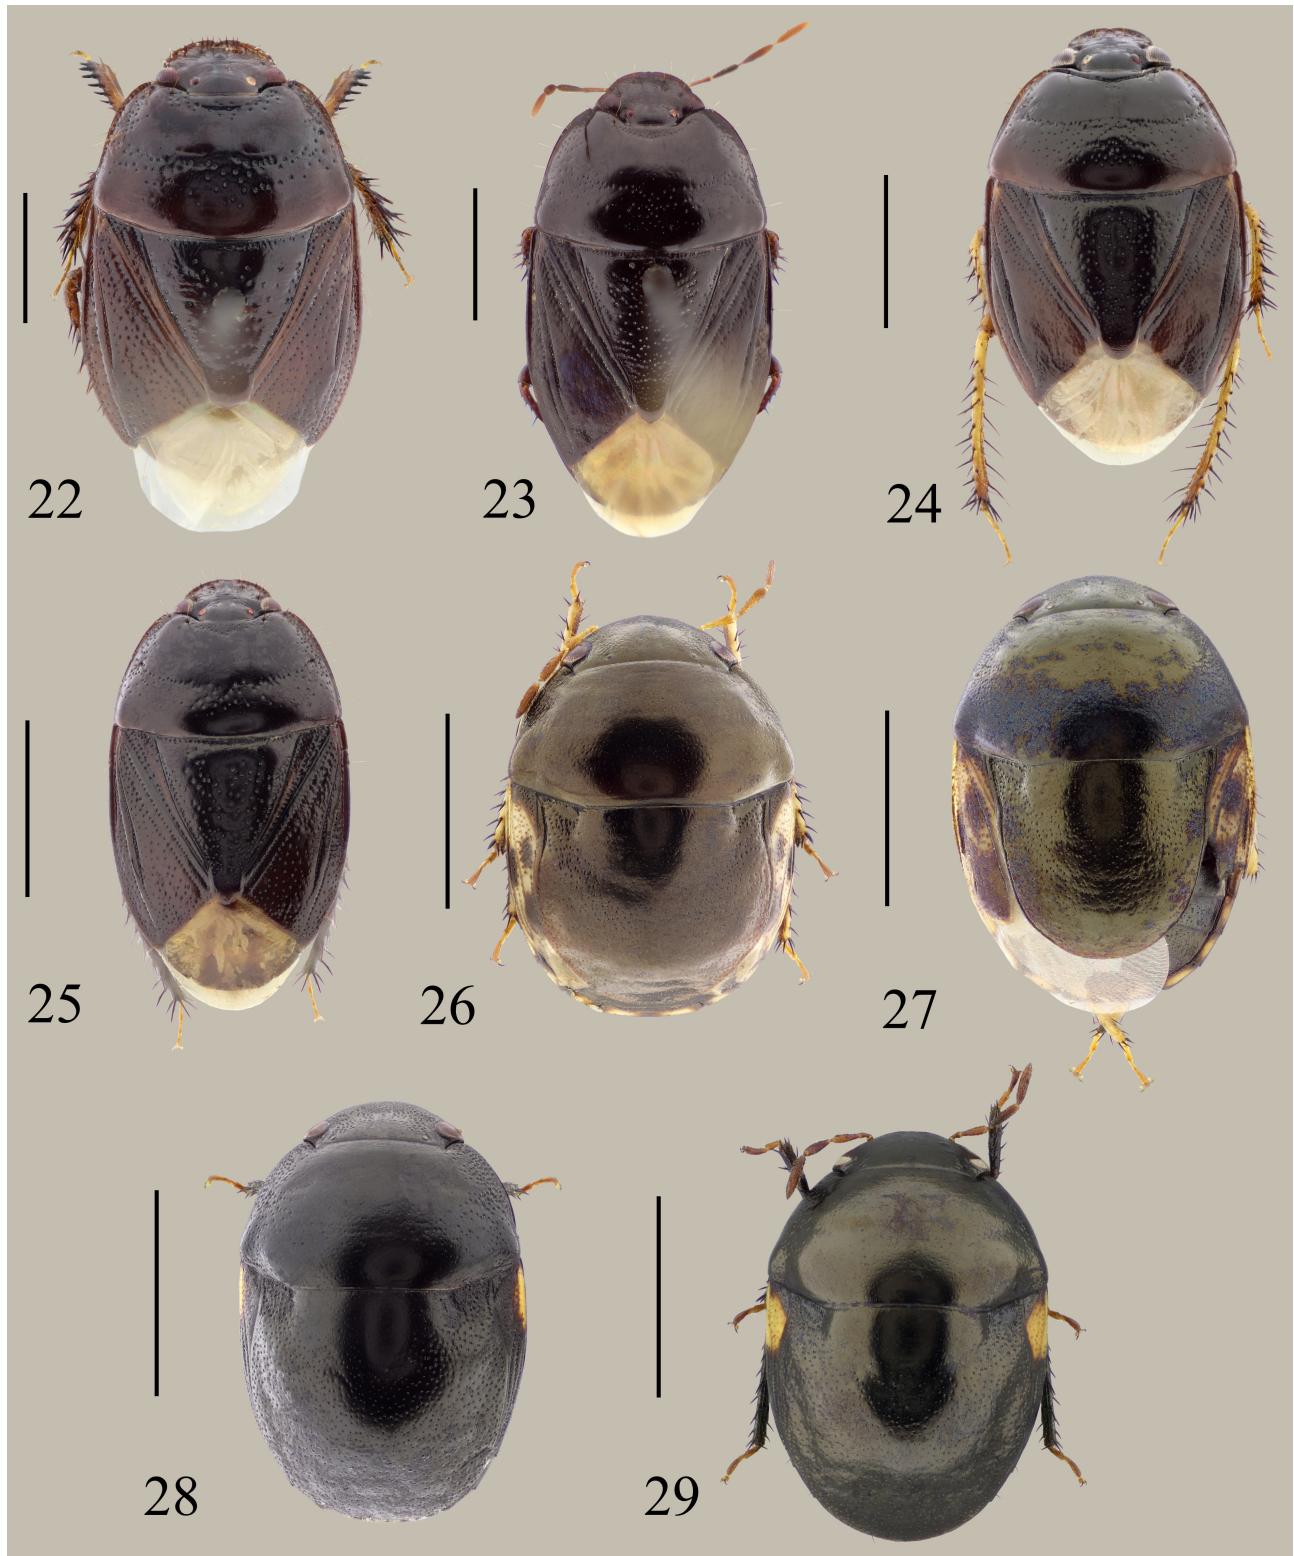

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de Luz, Amaru, J. det., MLP he-17051; 1♂, 25 10'25,19"S-58 7'47,12"W, 13/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., Amaru, J. det., MLP he-17055; 1♂, same locality, 8/X/2023, t. de luz, Melo, M.C. Col., Amaru, J. det., MLP he-17054; 1♀, same locality, 9/X/2023, t. de luz, Melo, M.C. col., Amaru, J. det., MLP he-17050; 1♀, same data, Dellapé, P. col., Amaru, J. det., MLP he-17049.

***Tominotus inconspicuous* Froeschner, 1960. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/22725.html>

(Fig. 25)

**Material studied.** 2♀♀, Laguna Blanca, -25.173665 -56.129756, 13/II/2022, t. de Luz, Amaru, J. det., MLP he-17083, 17089; 1♂, 4♀♀, Laguna Blanca, 25°10'25,19"S-58°7'47,12"W, 14/II/2022, t. de luz, Cheli, G., Dellapé, P., Melo, C., Olivera, L. cols., MLP he-17120, 17069/17072.

**FIGURES 22–29.** Dorsal habitus of Cydnidae recorded from the Rio Pilcomayo National Park. 22, *Cyrtomenus mirabilis*. 23, *Dallasiellus alutaceus*. 24, *Pangaeus xanthopus*. 25, *Tominotus inconspicuous*. 26, *Galgupha (Gyrocnemis) concava*. 27, *Galgupha (G.) triconcava*. 28, *Galgupha (Pestophleps) costomaculata*. 29, *Galgupha (P.) neobisignata*. Scale bars: 2 mm.

## **Thyreocorinae**

### **Corimelaenini**

***Galgupha (Gyrocnemis) concava* McAtee and Malloch, 1928. First record from Formosa Province**  
<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20867.html>  
(Fig. 26)

**Material studied.** 1♀, Estero Poi, -25.060222 -58.139167, 10/II/2022, Olivera, L. col., Amaru, J. det., MLP he-17017.

***Galgupha (Gyrocnemis) triconcava* McAtee and Malloch, 1933. First record from Formosa Province**  
<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20880.html>  
(Fig. 27)

**Material studied.** 1♂, Estero Poi sobre rio Pilcomayo, -25.019010 -58.117548, 14/II/2022, Dellapé, P. col., Amaru, J. det., MLP he-17576.

***Galgupha (Nothocoris) terminalis* (Walker, 1867a)**  
<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20891.html>

**Material studied.** 1♀, Estero Poi sobre rio Pilcomayo, -25.019010 -58.117548, 14/II/2022, Dellapé, P. col., Amaru, J. det., MLP he-17016.

***Galgupha (Pestophleps) costomaculata* McAtee and Malloch, 1933. First record from Argentina**  
(Fig. 28)

**Material studied.** 1♀, Estero Poi sobre río Pilcomayo, -25.019010 -58.117548, 14/II/2022, Dellapé, P. Col., Amaru, J. det., MLP he-17048; 3♂♂, Mirador, -25.0151792 -58.1306691, 9/X/2023, Minghetti, E. col., Amaru, J. det. MLP he-17040/17042; 4♂♂, same data, Melo, M.C. col., Amaru, J. det. MLP he-17043/17046; 1♂, same data, Dellapé, P. col., Amaru, J. det., MLP he-17047.

**Note.** Reported only from Paraguay and Brazil (McAtee and Malloch 1933), this is the first record from Argentina.

***Galgupha (Pestophleps) neobisignata* McAtee and Malloch, 1933. First record from Formosa Province**  
<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20898.html>  
(Fig. 29)

**Material studied.** 10♂♂, 5♀♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, t. de luz, Melo, M. C., Amaru, J. det., MLP he-17000/17014; 1♂, Estero Poi sobre Rio Pilcomayo, -25.01901 -58.117548, 14/II/2022, Dellapé, P. col., Amaru, J. det., MLP he-17015.

## **Pentatomidae**

### **Pentatominae**

#### **Carpocorini**

### ***Diceraeus melananthus* Dallas, 1851**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22026.html>

**Material studied.** 1♂, 2♀♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, t. de luz, Melo, Olivera, Cheli & Dellapé cols., Castro-Huertas, V. det., MLP he-16468/16469, 16471; 1♂, Estero Poi, -25.060222 -58.139167, 82 m, 10/II/2022, Olivera col., Castro-Huertas, V. det., MLP he-16470.

### ***Oebalus poecilus* (Dallas, 1851). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22073.html>

**Material studied.** 1♂, 1♀, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, t. de luz, Melo, M.C. col., Castro-Huertas, V. det., MLP he-16473/16474; 1♀, same locality, 9/X/2023, t de luz, Dellapé, P. col., Castro-Huertas, V. det., MLP he-16475.

## **Nezarini**

### ***Cytocephala cogitabunda* Berg, 1883. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22217.html>

**Material studied.** 1♂, 2♀♀, Estero Poi, -25.118833 -58.170139, 14/II/2022, Olivera, L. col., Castro-Huertas, V. det., MLP he-16477/16478; 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, t. de luz, Minghetti, E. col., Castro-Huertas, V. det., MLP he-16476.

## **Scutelleridae**

### **Pachycorinae**

#### ***Camirus brevilinea* (Walker, 1867b). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22744.html>

**Material studied.** 1♂, 1♀, Laguna Blanca, -25.173665 -58.129756, 12/II/2022, Dellapé col., Castro-Huertas, V. det., MLP he-8738, 8740.

### ***Chelycoris scitulus* (Walker, 1867b)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20940.html>

**Material studied.** 2♂♂, 2♀♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, Melo, M.C. col., Castro-Huertas, V. det., MLP he-8734/8737; 1♂, 1♀, same data, Melo, Olivera, Cheli & Dellapé cols., Castro-Huertas, V. det., MLP he-8732, 8733; 4♂♂ 1♀, Estero Poi, -25.118833 -58.170139, 14/II/2022, Melo, M.C. col., Castro-Huertas, V. det., MLP he-8725/8728, 8730; 1♂, 1♀, same data, Olivera, L. col., Castro-Huertas, V. det., MLP he-8729, 8731.

## **Lygaeoidea**

### **Berytidae**

### **Metacanthini**

***Jalysus sobrinus* Stål, 1862b. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20067.html>

**Material studied.** 1♂, 2♀♀, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-2194, 2195/2196.

**Blissidae**

***Ischnodemus formosus* Dellapé and Melo, 2022**

<https://biodar.unlp.edu.ar/pentatomomorpha/en/info/22674.html>

**Material studied.** 1♂, 1♀, 25.571°S 58.322°W, 11-XII-2018, Dellapé & Melo cols., MLP he-10569, 10570; 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, Melo col., MLP he-6694; 1♀, Estero Poi, -25.118833 - 58.170139, 14/II/2022, L. Olivera col., Dellapé, P.M. & Melo, M.C. det., MLP he-6695.

***Ischnodemus oblongus* (Fabricius, 1803)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20096.html>

**Material studied.** 1♂, Estero Poi, Mirador, -25.0151792 -58.1306691, 9/X/2023, E. Minghetti col., Dellapé, P.M. & Melo, M.C. det., MLP he-14687, 14688.

***Ischnodemus paramoides* Slater and Wilcox, 1969**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20086.html>

**Material studied.** 1♀, Estero Poi, mirador del Rio, 25.015°S 58.130°W, 24/II/2022, Dellapé, P.M. col., MLP he-6724; 1♀, Estero Poi, Mirador, -25.0151792 -58.1306691, 9/X/2023, E. Minghetti col., Dellapé, P.M. & Melo, M.C. det., MLP he-14774; 1♀, same data, Melo, M.C. col., MLP he-16194.

***Ischnodemus severus* Slater and Wilcox, 1969. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20089.html>

(Fig. 30)

**Material studied.** 1♂, Estero Poi, Mirador, -25.0151792 -58.1306691, 9/X/2023, E. Minghetti col., Dellapé, P.M. & Melo, M.C. det., MLP he-9935.

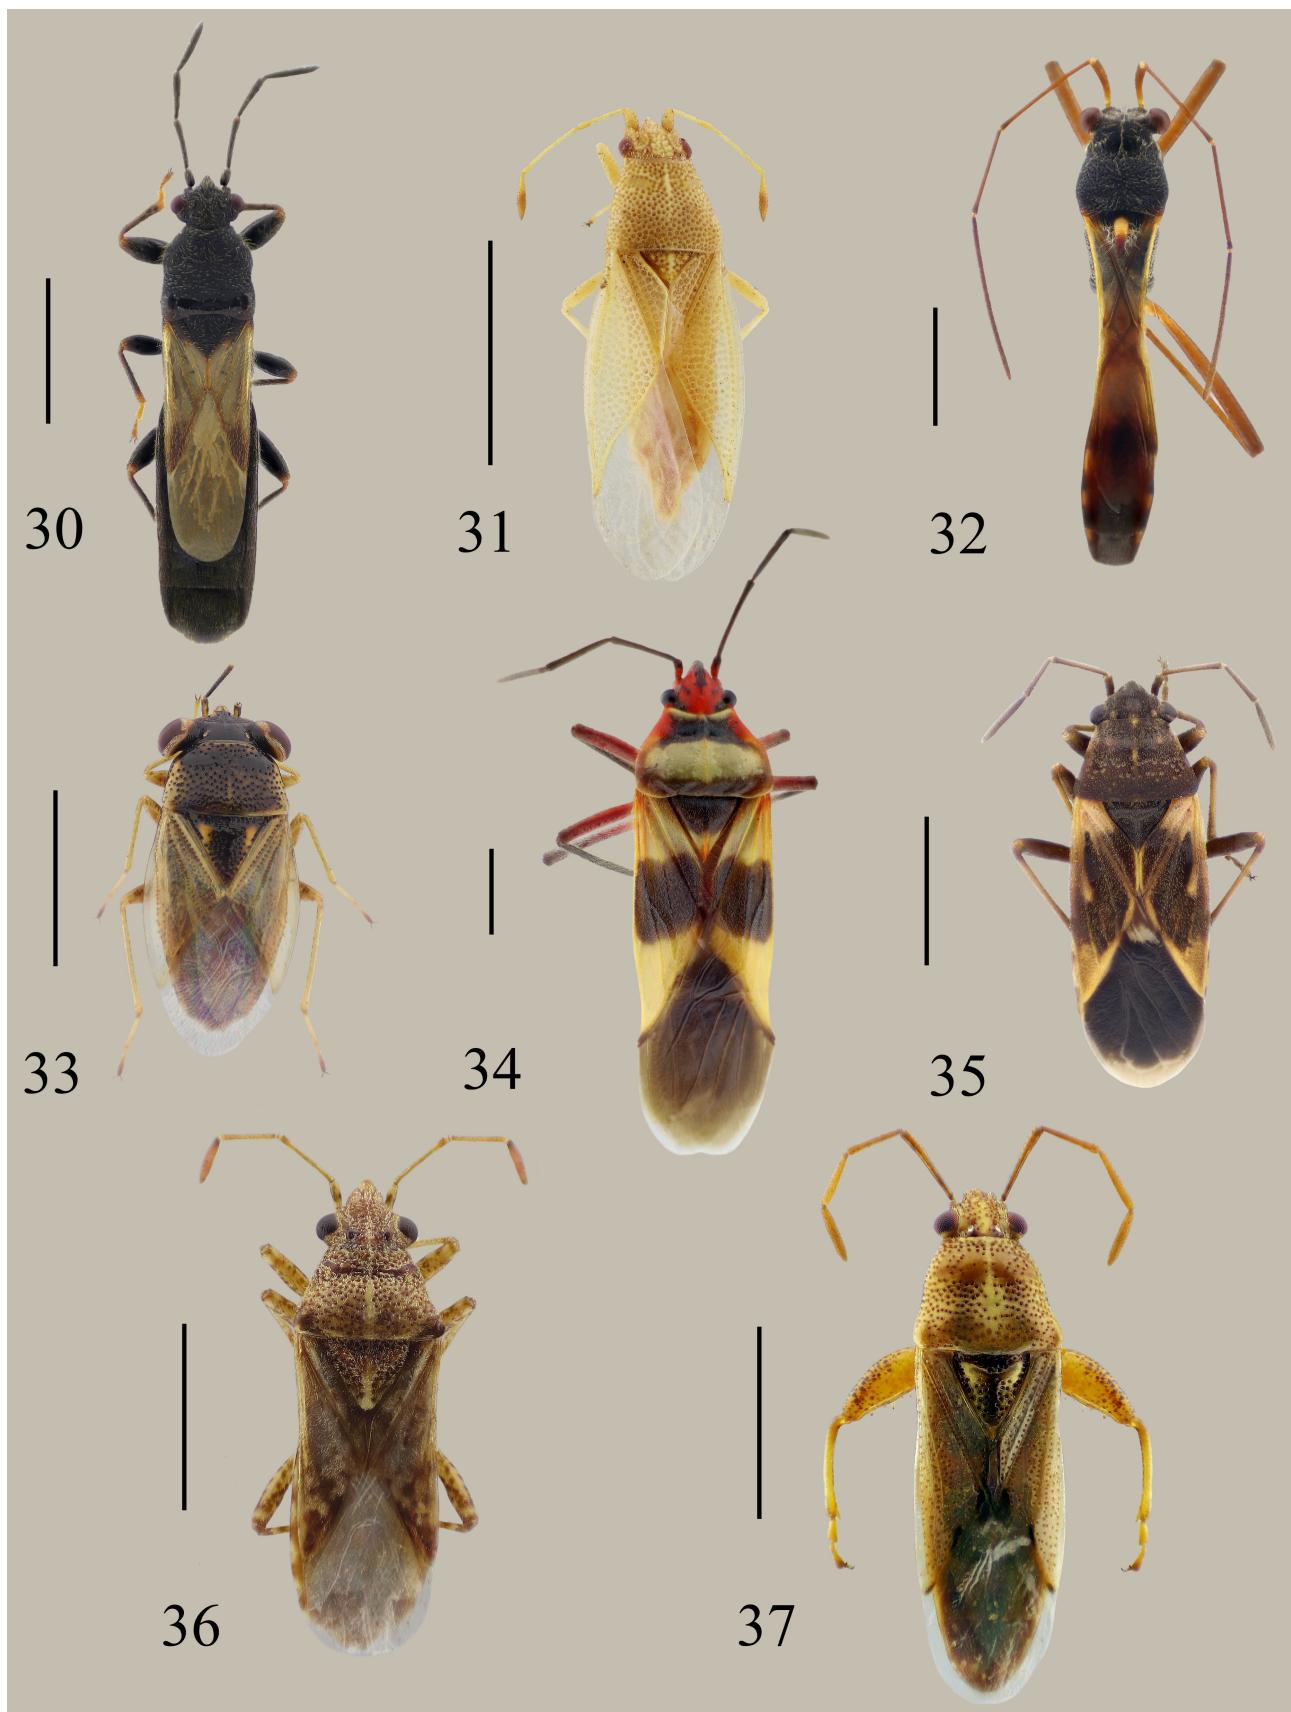

**Cymidae**

***Cymodema breviceps* (Stål, 1874). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20108.html>

(Fig. 31)

**Material studied.** 3♀♀, Laguna Blanca, 25°10'25.19"S 58°7'47.12"W, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., Dellapé, P.M. det., MLP he-7127/7129.

**FIGURES 30–37.** Dorsal habitus of Lygaeoidea recorded from the Rio Pilcomayo National Park. 30, *Ischnodemus severus*. 31, *Cymodema breviceps*. 32, *Trichocentrus gibbosus*. 33, *Geocoris callosulus*. 34, *Oncopeltus unifasciatellus*. 35, *Ochrimnus cinctipennis*. 36, *Neortholomus jamaicensis*. 37, *Oedancala kormilevi*. Scale bars: 2 mm.

## Colobathristidae

### *Trichocentrus gibbosus* Horváth, 1904

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/20105.html>  
(Fig. 32)

**Material studied.** 2♂♂, 1 nymph, -25.1210739 -58.1835931, 12/XII/2018, Dellapé col., Dellapé, P.M. det., MLP he-6889/6891; 1♂, Mirador, -25.0151792 -58.1303391, 9/X/2023, Melo, M.C. col., Dellapé, P.M. det., MLP he-16197.

## Geocoridae

### *Geocoris callosulus* Berg, 1878. First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20109.html>  
(Fig. 33)

**Material studied.** 1♀, Estero Poi, -25.060222 -58.139167, 11/II/2022, Melo col., Dellapé & Melo det., MLP he-7400.

## Lygaeidae

### Lygaeinae

#### *Oncopeltus unifasciatellus* Slater, 1964. First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20134.html>  
(Fig. 34)

**Material studied.** 2♂♂, 2♀♀, -25.1221585 -58.1791104, 2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-865/868.

#### *Oxygranulobaphus willinki* Brailovsky, 1982. First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20136.html>

**Material studied.** 3♂♂, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & Dellapé cols., Dellapé, P.M. det., MLP he-14851/14853; 1♂, 2♀♀, same data, 14/II/2022, Dellapé, P.M. det., MLP he-14829/14831; 2♂♂, 4♀♀, same locality, 15/II/2022, t. de luz, Dellapé, P. col., MLP he-14815/14821; 1♂, 1♀, same data, Melo, M.C. col., Dellapé, P.M. det., MLP he-14848, 14849; 1♂, 5♀♀, same data, 15/II/2022, Dellapé, P.M. det., MLP he-14843/14847, 14850.

#### *Torvochrimnus poeyi* (Guérin-Méneville, 1838)

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20129.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, t. de luz, 9/X/2023, Dellapé, P.M. col., Dellapé, P.M. det., MLP he-14662.

#### *Ochrimnus cinctipennis* (Stål, 1860). First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20126.html>  
(Fig. 35)

**Material studied.** 1♂, Mirador, -25.0151792 -58.1306691, 9/X/2023, Dellapé, P. col., MLP he-16503; 1♀, -25.0480576 -58.1271621, 9/X/2023, Dellapé, P. col., Dellapé, P.M. det., MLP he-14640.

## Orsillinae

### Nysiini

#### *Nysius simulans* Stål, 1859b

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20149.html>

**Material studied.** 1♂, 25°10'25.19"S 58°4'47.12"W, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & Dellapé cols., Dellapé, P.M. det., MLP he-8744.

#### *Neortholomus jamaicensis* (Dallas, 1852)

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20140.html>

(Fig. 36)

**Material studied.** 1♂, 1♀, Estero Poi, -25.060222 -58.139167, 82 m, 10/II/2022, Olivera, L. col., Dellapé, P.M. det., MLP he-14878, 14879.

## Pachygronthidae

### Teraciinae

#### *Oedancala kormilevi* Slater, 1955. First record from Formosa Province

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20158.html>

(Fig. 37)

**Material studied.** 1♀, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-9319.

#### *Oedancala meridionalis* Stål, 1874

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20159.html>

**Material studied.** 1♂, 3♀♀, -25.1221585 -58.1791104, 2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-9376/9378; 1♀, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-9379; 7♂♂, 8♀♀, Laguna Blanca, -25.0480576 -58.127621, 9/X/2023, Melo, M.C. col., Dellapé, P.M. det., MLP he-16316/16332; 1♀, -25.173665 -58.129756, 9/X/2023, Dellapé, P. col., Dellapé, P.M. det., MLP he-16333.

#### *Phlegyas patruelis* Berg, 1883. First record from Formosa Province

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/20163.html>

**Material studied.** 1♂, 1♀, -25.0858430 -58.1566929, 11/XII/2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-9256, 9257; 2♂♂, -25.1210739 -58.1835931, 12/XII/2018, Dellapé & Melo cols., Dellapé, P.M. det., MLP he-9258, 9259.

## Rhyparochromidae

### Rhyparochrominae

#### Lethaeini

##### ***Bubaces enatus* Brailovsky, 1981. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20168.html>

(Fig. 38)

**Material studied.** 2♂♂, 2♀♀, Laguna Blanca, 25°10'25.19"S 58°7'47.12"W, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., Dellapé, P.M. det., MLP he-9551/9554.

##### ***Cistalia alboannulata* (Stål, 1860)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20171.html>

**Material studied.** 1♂, Laguna Blanca, 25°10'25.19"S 58°7'47.12"W, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., Melo, M.C. det., MLP he-10783.

##### ***Cryphula affinis* (Distant, 1901)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20174.html>

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & Dellapé cols., Dellapé, P.M. det., MLP he-9935; 1♀, same data, 14/II/2022, Dellapé, P.M. det., MLP he-9933; 1♂, same data, 15/II/2022, Melo, M.C. det., MLP he-9936.

##### ***Lipostemmata major* Ashlock, 1970**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20177.html>

(Fig. 39)

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz; Melo, L. Olivera, G. Cheli & P. Dellapé cols., Dellapé, P.M. det., MLP he-9979; 1♀, same data, 14/II/2022, Dellapé, P.M. det., MLP he-9996; 1♀, same locality, 15/II/2022, t. de luz, Dellapé, P. col., MLP he-9990; 1♀, same locality, 9/X/2023, T. de luz, Melo, M.C. col., Dellapé, P.M. det., MLP he-14719.

##### ***Lipostemmata scutellata* Ashlock, 1970**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20178.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & Dellapé cols., Melo, M.C. det., MLP he-11089.

##### ***Neopetissius perplexus* O'Donnell, 2001. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20179.html>

(Fig. 40)

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Dellapé, P.M. det., MLP he-11100; 1♀, same locality, 8/X/2023, t. de luz, Dellapé, P.M. col., Dellapé, P.M. det., MLP he-16502; 2♀♀, same

locality, 9/X/2023, Minghetti, E. col., Dellapé, P.M. det., MLP he-14705, 14706; 1♂, 2♀♀, 9/X/2023, Melo, M.C. col, Dellapé, P.M. det., MLP he-14701/14703; 1♂, same data, Dellapé, P. col., Dellapé, P.M. det., MLP he-14704.

### ***Valtissius distinctus* (Distant, 1901)**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20182.html>  
(Fig. 41)

**Material studied.** 2♂♂, 2♀♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., Dellapé, P.M. det., MLP he-11493/11496; 5♀♀, same data, 14/II/2022, Dellapé, P.M. det., MLP he-11497/11501.

## **Myodochini**

### ***Baranowskiobiuss bimaculatus* Dellapé, Melo, and Henry, 2016**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20229.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 9/X/2023, t. de luz, Minghetti, E. col., Dellapé, P.M. det., MLP he-14646.

### ***Erlacula argentinensis* Dellapé and Melo, 2004. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20194.html>  
(Fig. 42)

**Material studied.** 1♀, Laguna Blanca, 25°10'25.19"S 58°7'47.12"W, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., Melo, M.C. det., MLP he-11779.

### ***Froeschneria multisepia* (Stål, 1874). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20195.html>

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Dellapé, P.M. det., MLP he-11831.

### ***Neopamera albocincta* (Barber, 1953). First record from Formosa Province**

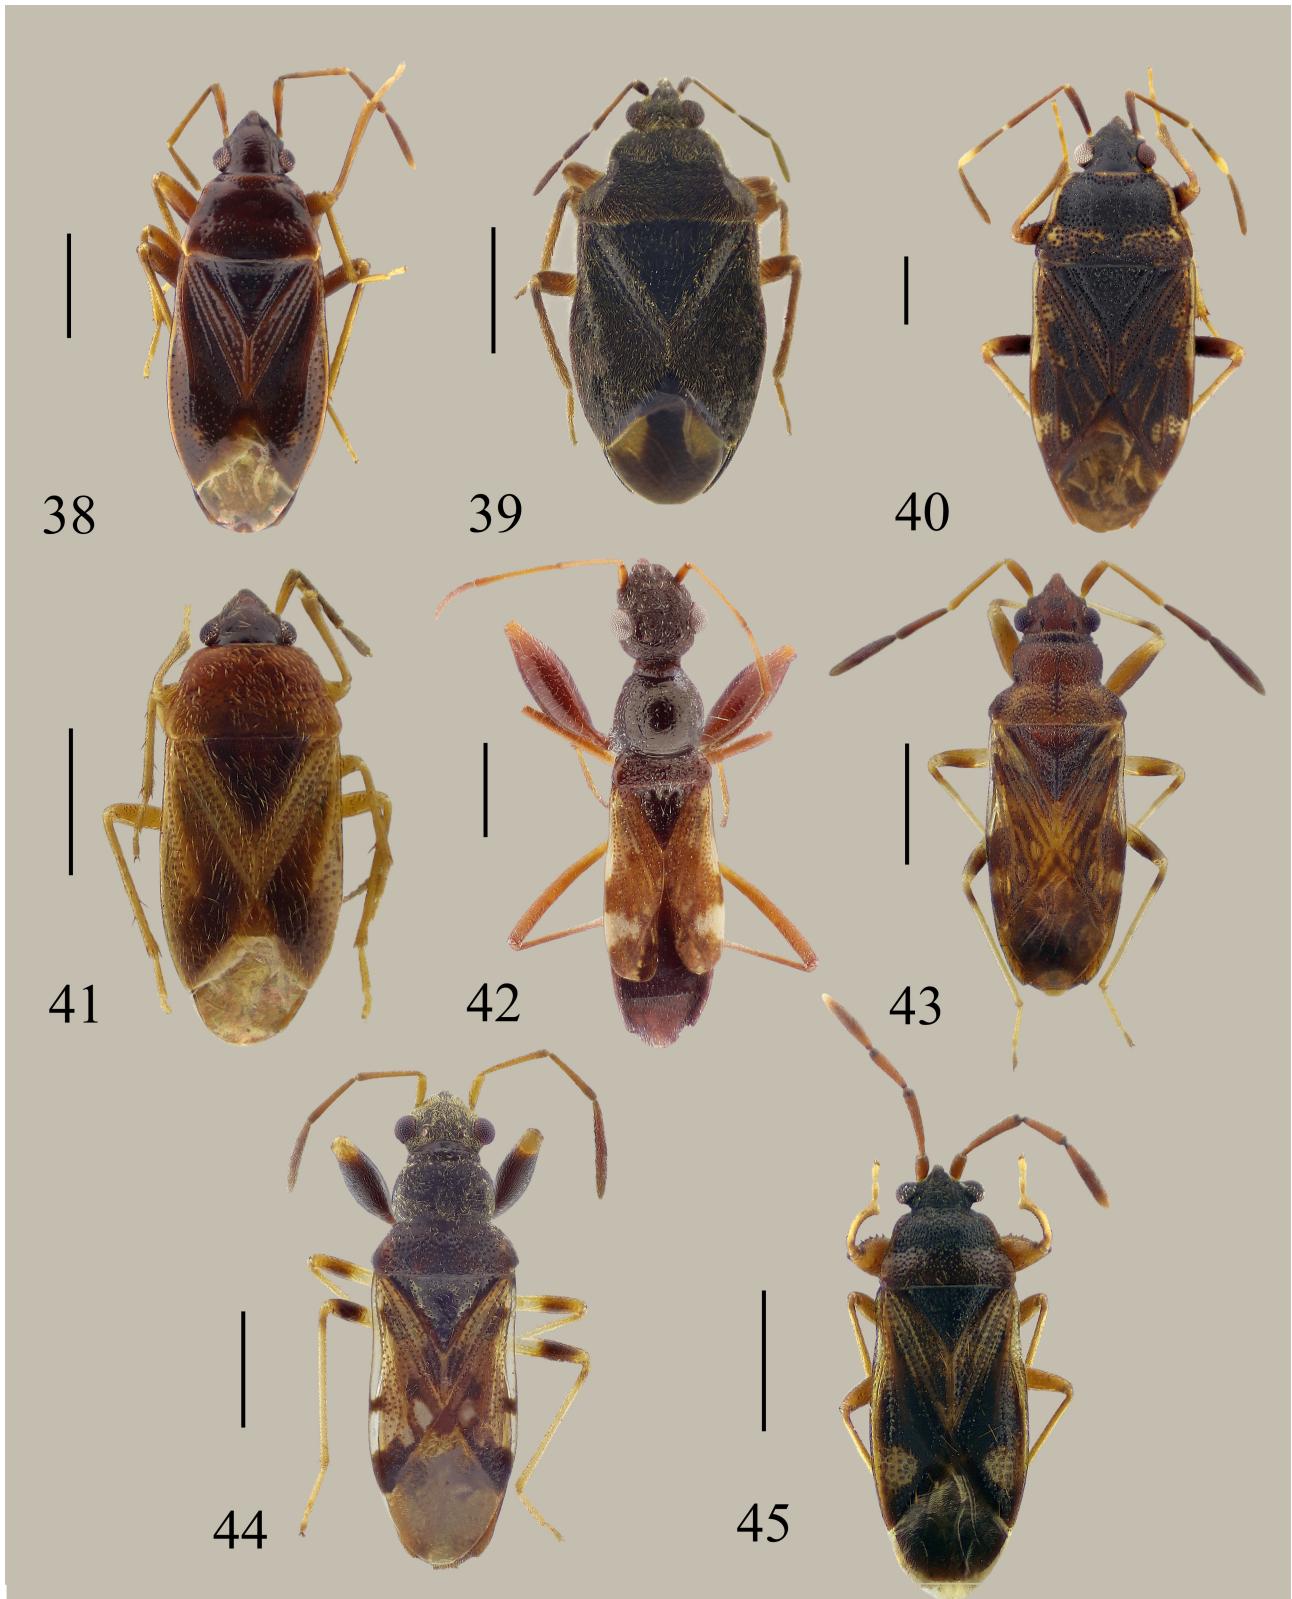

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20198.html>

**Material studied.** 7♂♂, 7♀♀, Laguna Blanca, 25°10'25.19"S 58°7'47.12"W, t. luz, G. Cheli, P. Dellapé, C. Melo & L. Olivera cols., MLP he-14312/12325; 5♂♂, 5♀♀, same data, 15/II/2022, Dellapé, P.M. det., MLP he-12048/12052, 12436/12440.

### ***Neopamera bilobata* (Say, 1832). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20199.html>

**Material studied.** 1♂, 2♀♀, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, M.C. Melo, L. Olivera, G. Cheli & P. Dellapé cols., MLP he-12349/12350, 12356; 2♂♂, 2♀♀, same data, 14/II/2022, Dellapé, P.M. det., MLP he-12351/12354.

**FIGURES 38–45.** Dorsal habitus of Lygaeoidea recorded from the Rio Pilcomayo National Park. 38, *Bubaces enatus*. 39, *Lipostemmata major*. 40, *Neopetissius perplexus*. 41, *Valtissius distinctus*. 42, *Erlacda argentinensis*. 43, *Prytanes formosus*. 44, *Pseudopachybrachius concepcioni*. 45, *Tempyra biguttula*. Scale bars: 1 mm.

***Paromius procerulus* (Berg, 1892). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20206.html>

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 13/II/2022, t. de luz, Dellapé, P.M. det., MLP he-12919.

***Prytanes foedus* (Stål, 1860). First record from Formosa Province**

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/22745.html>

**Material studied.** 2♂♂, 4♀♀, Laguna Blanca, 15/II/2022, Dellapé, P.M. & Melo, M.C. det., MLP he-13356/13361; 1♂, same locality, 9/X/2023, Melo, M.C. col., Dellapé, P.M. det., MLP he-14636.

***Prytanes formosus* (Distant, 1882). First record from Formosa Province**

<https://www.biodar.unlp.edu.ar/pentatomomorpha/es/info/22740.html>

(Fig. 43)

**Material studied.** 12♂♂, 3♀♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, t. de luz, Melo, L. Olivera, G. Cheli & P. Dellapé cols., MLP he-13833/13847; 1♀, same locality, 9/X/2023, t. de luz, Dellapé, P. col., MLP he-14635.

***Prytanoides prorrectus* Dellapé and Melo, 2024**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/22761.html>

**Material studied.** 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, Melo, Olivera, Cheli & Dellapé cols., T. de luz, MLP he-10708.

***Pseudopachybrachius concepcioni* Zheng and Slater, 1984. First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20209.html>

(Fig. 44)

**Material studied.** 1♂, Laguna Blanca, -25.173665 -58.129756, 8/X/2023, t. de luz, Minghetti, E. col., Dellapé, P.M. det., MLP he-13807.

***Pseudopachybrachius vinctus* (Say, 1832). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20208.html>

**Material studied.** 1♂, Mirador, -25.0151792 -58.1306891, 9/X/2023, Dellapé, P. col., Dellapé, P.M. det., MLP he-16504; 1♀, Laguna Blanca, -25.173665 -58.129756, 14/II/2022, t de luz, Melo, Olivera, Cheli & Dellapé cols., Dellapé, P.M. det., MLP he-14027.

***Pseudoparomius linearis* (Stål, 1874). First record from Formosa Province**

<https://biodar.unlp.edu.ar/pentatomomorpha/es/info/20210.html>

**Material studied.** 1♀, Laguna Blanca, 25°10'25,19"S 58°7'47,12"W, 14/II/2022, t. de luz, M.C. Melo, L. Olivera, G. Cheli & P. Dellapé cols., Dellapé, P.M. det., MLP he-20100.

## Udeocorini

### ***Tempyra biguttula* Stål, 1874. First record from Formosa Province**

## Discussion

The study of the diversity of true bugs in the Rio Pilcomayo National Park resulted in an inventory of 112 species belonging to 27 families. Additionally, one undescribed genus and species of Deraeocorini (Miridae), one new species of *Horcias* (Mirinae: Mirini), and one of *Ischnodemus* (Blissidae) were found; and one species of Notonectidae and two species of Edessinae (Pentatomidae) were not possible to identify confidently, and were excluded from the inventory.

Three species constitute first records from Argentina, and 69 species from Formosa Province. This last number is remarkably high considering that from this northern province 266 species have been recorded (Melo *et al.* 2024b, Dellapé *et al.* 2024, Melo and Dellapé 2024) increasing this number by 26% to 338 species.

In Argentina, the Humid Chaco includes four protected areas: Río Pilcomayo National Park, Chaco National Park, Laguna El Palmar National Park, and the Natural Reserve Colonia Benítez. Among them, only the diversity of true bugs from the P.N. Chaco have been studied (Melo *et al.* 2011). The comparison from both inventories results in only 14.49 % similarity of species, and among these two inventories 182 species from Humid Chaco are recorded. It should be noted that this low similarity is partly due to the fact that not exactly the same families were inventoried and that the sampling efforts were different in each study. Moreover, if we expand the data to the Argentinean protected areas from the Chaco Grasslands, including both Humid and Dry Chaco the number of species recorded from protected areas increase to 226 (Dellapé *et al.* 2016, Dellapé and Melo 2022, Melo *et al.* 2011, Melo and Dellapé 2022, Melo *et al.* 2024a). In these studies, 90 new specific level records to the Chaco Province and 13 new specific level records to Argentina were reported, and some of the collected specimens were assigned to new species that were subsequently described (Dellapé *et al.* 2016, Dellapé and Melo 2022). This shows the incomplete knowledge about the true bug diversity in the region, and the taxonomic work that needs to be done in order to have a better knowledge of the diversity of true bugs in the Chaco Grasslands.

## Acknowledgments

We would like to acknowledge Felipe Moreira (Instituto Oswaldo Cruz, RJ, Brazil) for the help with the identification of Gerridae species. This work was partially funded by Fondo para la Investigación Científica y Tecnológica (FONCYT) PICT 2018-0771, and the Consejo Nacional de Investigaciones Científicas y Técnicas (CONICET) PIP-1505. CONICET Latin-American Postdoctoral Fellow for VCH, and CONICET Internal Postdoctoral Fellow for EM provided additional financial support.
